

+ Waterresistant
+ Dynamic speed

+ High security
+ All-terrain

*The All-Terrain Knee (AT-Knee) is a revolutionary innovation for mechanical knee joints, improving user **safety**, **energy efficiency**, and **walking speed**.*

Technical Specifications

Level of amputation:	Transfemoral	Flexion Angle:	150°
Level of mobility:	Mobility 1 – 4	Distal connector:	Tube \varnothing 30 mm
Weight:	900 g	Proximal height:	<2 cm
Height:	16.5 cm	Proximal adapter:	Pyramid
Maximum Weight:	175 Kg
